https://azzidahaka.github.io/david-sokabi/

Proficient in fundamental front-end and server-side languages with experience taking charge of front and back-end web development. Skillful in creating servers and databases for functionality, and designing and developing APIs.

Experience

Full-Stack Web Developer
- Developing and deploying dynamic web applications using TypeScript, Node.js, Express, and MongoDB.
- Designing and implementing responsive front-end interfaces with both React.js and Angular.
- Building RESTful APIs for efficient data exchange between client and server.
- Deploying applications on AWS EC2, handling server configuration, and database connections.
- Integrating authentication and user management with JSON Web Token (JWT).

Apple Technical Advisor
- Diagnosing and resolving complex technical issues across Macs, iPhones, and Apple TV, leveraging structured troubleshooting methodologies.
- Maintaining an average CSAT score of 93 %+, ensuring a seamless user experience through clear communication and efficient problem resolution.
- Analyzing recurring issues and patterns, contributing to knowledge base improvements, and process optimizations.

ICT Officer
- Delivering an exceptional level of service to each student by listening to concerns and answering questions while maintaining composure in difficult situations.
- Testing, repairing, and updating equipment systems and components to meet current and expected demands.
- Creating detailed lesson plans with related handouts to teach step-by-step computer use to students from beginner to advanced levels of computer literacy.

Employment History

Mac Technical Advisor, Teleperformance, Toronto, Ontario (Jan 2022-Present)
iPhone Technical Advisor, Teleperformance, Toronto, Ontario (Jul 2021 - Dec 2021)
ICT Officer, Unity Senior College, Lagos, Nigeria (Jun-Aug 2017)
